

Ratan Kumar Singh

Early spiritual inclination led to the Holi shelter of Pashupati Babaji at a very early age and has been blessed with guidance from even Karpatriji Maharaj from age of six. The desire to serve the country as a fighting pilot took him to NDA as the batch second ranker but unfortunate eye injury in a boxing tournament declared him unfit for Airforce. Divine had a different plan. On return from NDA became a state topper in I.Sc. Exams and a different inning with a totally different ball game started with a bang and desire to serve the nation and society again brought him in Government Service till he retired as an IRS.

But the basics namely Spirituality, Nationality and Social Welfare always remained in priority like while he was posted in Bombay (now Mumbai) besides his job and despite being a devout proud practising Hindu he managed to learn about Islam from a Hazrat and Christianity from a Priest so that he could better understand the Religions. His spiritual inquisitiveness made him a voracious reader and never missed any chance to meet great saints and learned people.

Presently extremely busy working as a consultant, motivational and spiritual speaker, social activities etc.

A few words about his father late Jag Narain Singh:

He was a person, who never fell ill till his death at the age of 88 years and that too he himself predicted about his date and time of death. Medical check-up and consultation by eminent physician found his all organs functioning like a young person but the miracle happened that he died at his given time without any pain.
